The screenshot displays the 'noforeignland' app interface. On the left, a sidebar for the boat 'Titanic Dupont' shows it has no followers. Navigation buttons include 'SHOW JOURNEY', 'FIND', 'MOVE', 'FOLLOW', 'SHARE', 'CHAT', 'MOVE BOAT', 'MILEAGE CALC', and 'SETTINGS'. The 'DETAILS' tab is selected and circled in blue. Below the tabs, the 'Groups' section states 'This boat's crew belongs to no groups' and features a 'FIND GROUPS' button, also circled in blue. The 'Tracking status' section shows the position was last received and updated on 8/16/2025 at 2:54:15 PM. The 'Boat information' section is partially visible at the bottom.

The main area is a map of a coastal region with a blue body of water. A red location pin with a sailboat icon is circled in blue, with an arrow pointing to it from the 'FIND GROUPS' button. Other map features include a red exclamation mark icon, a green anchor icon, and several green icons along the shoreline. A vertical toolbar on the right contains icons for map layers, search, heart, funnel, location pin, compass, and zoom controls. A top navigation bar includes icons for a clipboard, chat, notifications (with a red badge showing '6'), and a user profile (with a red badge showing 'J'). A bottom status bar indicates 'Map filters are on'.
